*Pollenza* – Fintel Energia Group SpA (FTL.MI) today announces that its subsidiary MK-Fintel Wind A.D. has signed a Term Sheet with a consortium formed by International Partners to finance, build and operate a wind farm of up to 128,7 MW of installed power in Vrsac, approximately 60 miles north-east of Belgrade.

Accordingly, the consortium will acquire, subject to certain requirements as mentioned below, the majority of the shares of the project while MK-Fintel will remain responsible for the local operations and day by day management.
